Instrument

Violin, Viola, and Cello are the instruments your son or daughter can choose from for Strings Class. These instruments come in many sizes, and it is important that the size of the instrument matches the size of the student. Please be sure to get a music teacher to measure your child for the appropriate size instrument before you purchase an instrument.

Shoulder Rest or End Pin Anchor

Violin and Viola students need a shoulder rest. This will help support the instrument on the body. Artino, Kun, and shaped shoulder sponges are all acceptable.

Cello students will need an end pin anchor. This will help stabilize the instrument's end pin on the floor so that it does not slip. End pin anchors with a strap that can be attached to the leg of a chair are recommended. An example of this type is the Xeros Brand. End pin anchors without a strap are also acceptable options.

Rosin

cially for instrument cleaning are available, but a small washcloth or an old cut up t-shirt can also be used.

Supplies you will need for your strings instrument:

VIOLIN AND VIOLA: **Shoulder rest.** This will help support the instrument on the body. Artino, Kun, and shaped shoulder sponges are all acceptable.

CELLO: **End pin anchor.** This will help stabilize the instrument's end pin on the floor so that it does not slip. End pin anchors with a strap that can be attached to the leg of a chair are recommended. An example of this type is the Xeros Brand. End pin anchors without a strap are also acceptable options.

ALL BOWED INSTRUMENTS: **Rosin.** Either light or dark rosin is acceptable.

ALL STRING INSTRUMENTS (GUITAR, BASS GUITAR, VIOLIN, VIOLA, CELLO, STRING BASS):
Spare strings. Strings can wear down and break as time passes. Having a spare set of strings on hand can prevent having to make a trip to a music store at an inconvenient time. Some string brands I recommend are Red Label or D'Addario. Be sure to pick strings that match the size of the instrument you have.

Cleaning Rag. This is needed to keep the varnish of the instrument from getting damaged. Cloths made especially for instrument cleaning are available, but a small washcloth or an old cut up t-shirt can also be used.

*****All instruments must be properly marked with a name tag and contact information.**
